Dear Parents/Caregivers,

Wallacia Public School currently has a number of students enrolled with severe allergies to peanuts and all peanut products.

To allow these students to participate fully in all areas of school life we are requesting that parents/caregivers do not allow any students to bring any peanuts or nut products to school at any time, (this includes peanut butter sandwiches or fruit/fruit and nut bars that may contain peanuts or any other nuts).

Thank you for considering the welfare of these students when sending food with your child/children to school, school excursions and school functions at any time.

Yours sincerely

Mrs J Ruge
Principal
